Presenting Partners

ANU Japan Institute

The ANU Japan Institute is Australia's largest network of distinguished and emerging scholars with professional expertise on Japan. We research and teach in disciplines spanning art, economics, environment, health, history, international relations, language, law, linguistics, politics, regulation and Japanese studies.

Our mission, as part of Australia's national university, is to be a national resource: to contribute to public policy by strengthening knowledge of Japan among schools, universities, public institutions, government and the private sector, and to promote the centrality of Australia-Japan relations in Australia's Asian Century.

Australia-Japan Research Centre

The Australia-Japan Research Centre (AJRC) conducts research to explore and improve understanding of the economies and economic policy processes in Australia and Japan and both countries' strategic interests in the Asia Pacific economy. Its policy-oriented areas of interest cover developments in regional economic cooperation and integration, and encompass research on trade, finance, macroeconomics, structural and regulatory reform, as well as international economic relations.

The Japan Update is presented by the Australia-Japan Research Centre, Crawford School of Public Policy and the ANU Japan Institute at The Australian National University and is supported by the Embassy of Japan, Australia and the Australian Government through the Australia-Japan Foundation which is part of the Department of Foreign Affairs and Trade.
